INFORMATION TO CONTRIBUTORS

THE PROCEEDINGS OF THE NATIONAL ACADEMY OF SCIENCES publishes promptly brief first announcements of the results of original research by members of the Academy or others. Manuscripts will be accepted only from the members of the Academy who will assume responsibility for their propriety and scientific standards. Articles are limited to 8 printed pages, and no author may have more than 8 pages altogether in any one issue. Wherever practicable, results should be made clear without elaborate technical details; figures, tables, and formulae should be kept as simple as possible.

MANUSCRIPTS should be in the form of current numbers of the PROCEEDINGS, typewritten in duplicate with double spacing, the author retaining one copy, and addressed to THE PROCEEDINGS OF THE NATIONAL ACADEMY OF SCIENCES, 2101 Constitution Avenue, Washington, D. C. 20418.

GALLEY PROOF will be sent; as excessive authors' corrections are charged to them, typewritten manuscripts should be letter-perfect. Original art work or figures will be returned if requested when the manuscript is submitted. Because of the time limitations, page proofs will not be sent. Reprints should be ordered when proof is returned.
